Looking after your home

Helpful Tips:

Prevent future problems by:

- Wiping down windows affected by condensation and removing any mould.
- Removing limescale from baths sinks and shower heads with a descaler
- Prevent blockages in kitchen sink waste pipes by flushing through washing soda and hot water.
- Keeping outside gullies clear of leaves and debris so that water drains away easily.
- Make sure you know where your main Stopcock is and how to turn it off. Also be sure to know how to turn your electricity and gas supply off in an emergency. Ask your Neighbourhood Officer or contractor if you are unsure.
- Notify us if there are any tile or slates missing or broken on your roof or if there are any leaks from gutters or downpipes.

Alterations to your home:

Before you make any alterations to your home you must write to or email to us to obtain permission - we have to ensure your home will be safe. If you don't obtain permission you may be charged to repair or restore your home.

Examples could include:

- Moving fitted units or doors
- Adding electric points
- Building patios
- Extensions
- Adaptations

Could you be entitled to compensation?

At the termination of your tenancy you may qualify for a compensation payout, less an allowance for depreciation, for an improvement or alteration you carried out after 1st April 1994. You must have had written permission from us prior to any work being carried out. Contact us for more information.
